Workshop on Drug Formulation Designs for Challenging Requirements

May 15, 2018 – Waltham, Massachusetts

Overview

Workshop overview

Featuring new content including approaches to transcellular and paracellular oral bioavailability enhancement and custom bioresorbable polymers for controlled parenteral drug release. Advanced early stage formulation development approaches in the field of oral and parenteral drug delivery will also be discussed. This is an excellent opportunity to learn more about the use of EUDRAGIT* and RESOMER* polymers for controlled drug delivery and tailored drug release using EUDRATEC* formulation technologies.

Date

Tuesday, May 15, 2018

Location

Hilton Garden Inn Boston/Waltham 450 Totten Pond Road Waltham, Massachusetts, 02451 USA

Registration fee

Early registration discount: \$150 if registered by May 2nd After this date, the fee is \$350.

Registration deadline: May 7th

Accommodation

If you require overnight accommodations, you may book a room at the Hilton Garden Inn Boston/Waltham. Please call the hotel directly at +1-781-890-0100 and request the Evonik rate.

Registration

If you have questions, please contact Sandra Cramer at sandra.cramer@evonik.com or 732-981-5269.

Agenda

8:30 a.m.	Registration & Breakfast	12:15 p.m.	Lunch & Networking
9:30 a.m.	Welcome & Introduction Lindsey Clark, Business Director, Sales & Services North America, Evonik Corporation	1:15 p.m.	n. Innovative Complex Drug Delivery Formulations Dr. Andrea Engel, Head of Drug Delivery n. Lessons Learned in Custom Bioresorbable Polymer Development Dr. Howard Bowman, Global Technical Marketing Director, Evonik Corporation n. Coffee Break
9:45 a.m.	Overview of EUDRAGIT® Polymers for Oral Controlled Release Dr. Firouz Asgarzadeh, Director, Formulation & Application Services, Evonik Corporation	·	
10·30 a m	Coffee Break	2:45 p.m.	
	New Oral Controlled Release Drug Delivery with the EUDRATEC® Formulation Technology Platform Dr. Firouz Asgarzadeh, Director	3:00 p.m. PLA-PEG ACCURINS® Nanoparticles Platform: A Novel Class of Targeted Therapeutics Khaled Aamer, Senior Principal Scientist, Nanomedicine, Development & Manufacturing, Pfizer Inc.	
	Peptidic Drugs via the Oral Route of Administration Dr. Andrea Engel, Head of Drug Delivery Evonik Nutrition & Care GmbH	3:45 p.m.	Questions, Wrap-up and Meetings
		5:00 p.m.	End of Workshop
			EUDRAGIT®, RESOMER® and EUDRATEC® are registered Trademarks of Evonik Industries AG and its subsidiaries ACCURINS® is a registered Trademark of Pfizer, Inc.
