

APV ACADEMIA SEMINAR:

How to orientate for starting an industrial career

December 05 - 06, 2018
Darmstadt, Germany

Course no. 5026

Education and Science

Target group

PhD Students, Post Doc's and other graduates, who are preparing for a job in the pharmaceutical industry.

In cooperation with

Arbeitsgemeinschaft für Pharmazeutische Verfahrenstechnik e.V.
Gemeinnütziger wissenschaftlicher Verein
International Association for Pharmaceutical Technology

Summary and objectives

For the APV focus group „Education and Science“ it is an important concern to promote young scientists. In conversations with human resource departments of pharmaceutical companies and recruitment agencies we have identified significant differences between the claims of the pharmaceutical industry to graduates and the information provided in their application profiles.

Hence, in this seminar, we are going to discuss the most important questions about starting a career become treated in the pharmaceutical industry, including:

- Which position is interesting for me?
- How can I identify a company that might fit to me?
- How do I apply correctly?
- Which skills are useful in addition to my technical knowledge?
- How do I plan my industrial career meaningfully?

Participants will get a hands-on experience on different kinds of pharmaceutical industrial working environment such as R&D, Quality Control, Sales. Various types of companies and their specifics with respect to working culture and opportunities will be introduced by industrial pharmacists sharing their personal experiences.

Senior HR managers will share their view and expectations. And, as special offer they will be available for individual CV checks and Q&As.
