

EUDRAGIT® Workshop

Novel Concepts and
Polymers for Formulation
Development of
Challenging Drugs

May 6, 2025
Piscataway, New Jersey

Overview

This workshop features new content on the EUDRACAP® functional ready-to-fill coated capsule platform, a cost-effective and quick solution for novel actives for accelerated speed to market. Specialized oral formulation technologies, including EUDRATEC® SoluFlow microparticle technology, will be presented for developing free flowing amorphous powder for improved drug solubility and bioavailability.

This workshop is an excellent opportunity for technical staff in the pharmaceutical industry to learn about the use and application of EUDRAGIT® polymers and EUDRATEC® technologies in delayed release, sustained release, controlled release, taste masking, and moisture protection.

Location:

Evonik Piscataway
2 Turner Place,
Piscataway, NJ 08854

Date: May 6, 2025

Registration Fee: \$50.00 Space is limited so reserve your spot soon.

Accommodations:

If you require overnight accommodations, you may book a room at the Embassy Suite Piscataway – Somerset (732) 980-0500 or the Marriot Courtyard Somerset (732) 271-4555. Please call the hotel directly and request the Evonik rate.

Questions?

If you have questions, please contact Francine Clark via e-mail (francine.clark@evonik.com) or phone (732-981-5021).

Agenda

08:30 a.m.	Registration & Breakfast	12:15 p.m.	Lunch & Networking
09:00 a.m.	Welcome & Introduction Josh Stephens - Associate Director, Business Development	1:15 p.m.	Solubility Enhancement of Poorly Soluble Drugs Using EUDRAGIT® Polymeric Excipient & EUDRATEC® SoluFlow Dr. Nicole Mendonsa – Principal Scientist, FAS
9:15 a.m.	Piscataway Lab Formulation and Development Capabilities Dr. Irfan Syed- Associate Director, FAS	2:00 p.m.	Polymeric Coatings for Immediate, Enteric, and Sustained Release Applications Dr. Linda Felton – Professor – University of New Mexico/Pharmacy
09:30 a.m.	Overview of EUDRAGIT® and Customized Release With EUDRATEC® Technologies Brian Phillips – Principal Scientist, FAS	2:45 p.m.	Coffee Break & Networking
10:45 a.m.	Coffee Break & Networking	3:00 p.m.	Taste Masking of Bitter Drugs using EUDRAGIT Polymers Dr. Manish Rane - Associate Director Technical Sales – North America
11:00 a.m.	Pellet Coating using Wurster Technology Edward Godek – Director, Process Technology, Glatt Air Techniques	3:30 p.m.	Q&A and Panel
11:45 a.m.	EUDRACAP® Ready-to-Fill Capsules Enhance Functional Performance Dr. Kamlesh Oza - Head of Technical Sales NA, Formulation & Application Services	4:00 p.m.	Wrap-up
